

McCallum © Bagpipes A Sound Investment

www.mccallumbagpipes.com

GUARANTEE

Your new set of McCALLUM BAGPIPES is guaranteed for a period of five years from the date of purchase, provided proof of purchase is available or, alternatively, five years from the date of manufacture stamped on the bass mid-joint pin.

In the unlikely event of a manufacturing defect in your new set of McCALLUM BAGPIPES, it should be returned to:

McCALLUM BAGPIPES (for UK customers)

The original seller (for ALL customers outwith the UK)

Excluded from this guarantee are normal signs of wear and tear or damage caused by inappropriate use.

IMPORTANT

For this guarantee to be valid the bagpipe must be within five years of the manufacturing date as stamped on the bass mid-joint pin, or alternatively, for bagpipes outside this period but within five years since the date of purchase, proof of purchase is required.

***All pipes supplied with a 5 year,
no quibble, guarantee.***

McCALLUM PIPE CHANTERS

*African Blackwood or Plastic • No carving required • Easy to reed
Threaded reed seat • Comfortable to play • Good volume • Bright and stable*

We put a thread on the reed seat of all chanters (except C4) which alleviates the problems of the reed coming loose, especially on the plastic chanter in dry conditions. This locks the reed in place until adjusted by the piper.

The thread means the reed is locked in place - it can't move unless the piper moves it.

It's also a much more accurate way of setting the chanter reed pitch.

You turn the reed clockwise to sink the reed and sharpen it, and the anti-clockwise to raise it and sharpen it.

- C1** McCallum plastic pipe chanter
- C2** McCallum blackwood pipe chanter

Our standard Pipe Chanter (C1, C2) is played by pipe bands worldwide, including many of the top Grade 1 bands. In addition, it is also played by many top soloists and has won almost every top piping award.

- C3** McCallum M^cC² plastic pipe chanter
- C4** McCallum M^cC² blackwood pipe chanter

Our McCallum Solo Chanter (known as M^cC²) was designed exclusively by Willie McCallum and has won almost every top award since 2007. It is played by many bands throughout the world and indeed, won the Grade 2 World Championship in 2008, played by Bagad Cap Caval.

Imitation ivory with engraved alloy plate

ABO BAGPIPES

African Blackwood – Fully Combed & Beaded

Classic style blackwood projecting mounts, with beaded alloy ferrules, and alloy slides and ringcaps. Plus a plain alloy mouthpiece with McCallum plastic pipe chanter.

Every McCallum set comes complete with:

Synthetic zipper pipe bag; corded bag cover with velcro seal; silk cords; synthetic drone reeds; and a 5 year, no quibble guarantee.

To customise your bagpipes, see options on pages 40 and 41.

ABO Tenor Drone

McCallum Bagpipes are now supplied with McCallum alloy and threaded mounts.

The new alloy does not tarnish and looks more like silver, giving your pipes a top quality finish.

Threaded Hemp Retainers – a hidden extra. All our bagpipes are now fitted with threaded hemp retainers. This used to be a service provided for the top of the range models, but we feel that every player we cater for and every pipe we produce deserves that little something extra.

ABO Plain alloy mouthpiece

ABO Plain alloy ringcap

ABO Plain alloy closed beaded ferrule

ABO Classic style blackwood projecting mounts with beaded alloy ferrules

ABO Classic style blackwood projecting mounts with alloy slides and ferrules

ABI BAGPIPES

African Blackwood – Fully Combed & Beaded

Full blackwood projecting mounts, with beaded alloy ferrules, and alloy slides and ringcaps. Plus a plain alloy mouthpiece with McCallum plastic pipe chanter.

Every McCallum set comes complete with:

*Synthetic zipper pipe bag; corded bag cover with velcro seal;
silk cords; synthetic drone reeds;
and a 5 year, no quibble guarantee.*

To customise your bagpipes, see options on pages 40 and 41.

NEW PRODUCTS FROM **MG REEDS**

Mk-II Drone Reeds

The tenor reeds have acceptance in a wider range of pipes and increased durability. The bass has been redesigned, accommodating a wider range of pipes and to give a slightly deeper, broader sound.

MG Carbons

These reeds incorporate the same successful carbon fibre tongued bass and have been matched with new carbon fibre tongued tenors to give an instantly steady set of reeds with a sound that is second to none.

MG Pipe Bag Seasoning

Based on an original recipe, our seasoning has been successfully developed and tested and used by myself, Rory Grossart, for many years. The ingredients in the seasoning will feed and preserve the skin, help to absorb moisture and keep the bag airtight.

MG Chanter Reeds

We have worked on the chanter reeds for quite some time now, obtaining feedback, putting them to trial, and testing them for ourselves. I am now confident the final designs will not disappoint. The reed has undergone many variations in order to obtain the final cut and staple design. Numerous suppliers of cane have been tried and tested from regions around the world and we have formed a close relationship with our growers to ensure that the cane we get is the best quality possible.

The reeds are available as either ridge cut or traditional moulded, with seamless brass or folded copper staples. The reeds have successfully lifted prizes in Grade 2 band competitions and in the Gold Medal solo competitions. They have proved to be balanced, reliable and stable.

All reeds available in sets or separately
